Experience

Software Engineer Intern | John Hancock
Boston MA, January 2017 – Present
- Working in an agile environment creating user-centered internal facing apps to increase company productivity.
- Learning full stack work-flow to understand the process of creating and managing a complete product.

Designer | Scout Studio
Boston MA, January 2016 – December 2016
- Designed various high fidelity web pages for Scout's website using Sketch and Invision.
- Created collateral on the marketing team including posters, videos, and animations in Illustrator and Premiere

Photographer and Filmmaker | Freelance
Boston MA, July 2014 – December 2015
- Created a variety of videos and photos for both personal projects and various clients.
- Explored several forms content including video, photo, and graphic design.

Projects

Email Signature Tool
January 2017 – February 2017
- Developed a front end app that generates a user's email signature based on given input, written in Typescript/Angular 2.
- Provided internal consistency to 500+ employees through formatting and user-centered design.

Scout Site
January 2016 – May 2016
- Worked on a five person team of designers and developers to redesign Scout studio's website.
- Utilized an agile sprint-based schedule and weekly critiques to give feedback and make improvements.

Hello LA (Hack@Brown)
February 2016
- Created a web-based local's guide to Los Angeles on team of designers and developers.
- Designed the UI, UX, and brand identity of the site in a 24 hour turnaround deadline.
- ***Project won overall best user experience out of 100 teams.***
